

## Monthly Support Packages

Our monthly IT Manager as a Service (ITMaaS) support packages are tailored to the specific requirements of your business, ensuring you have the best possible solution as well as value for money.

We know that most smaller businesses find it prohibitively expensive to employ their own IT manager on a full time basis. Now there is no need to!

No. of users	ITMaaS	Microsoft 365 Business Standard*
Up to 5	£30	£9.40
Up to 10	£25	£9.40
Over 10	£20	£9.40

\*All prices exclusive of VAT and based on a per user / per month basis  
 \*Microsoft 365 Business Standard includes Teams, SharePoint, OneDrive and Exchange.

### Why ITMaaS?

Our managed IT services include your own personal IT manager – working in conjunction with our Help Desk; they're on call to sort out any IT issue either on site or remotely, and proactively keep your systems working at peak efficiency.

Your IT manager can also advise on IT budgets, policies, project planning and even liaising with third party suppliers.

### Why Microsoft 365?

Microsoft 365 Business Standard is best for businesses that need full remote work and collaboration tools including Microsoft Teams, secure cloud storage, business email, and premium Office applications across devices. Going direct is an annual commitment, with Dentech IT, it isn't. Everything we do is monthly rolling!

**10% discount on our monthly ITMaaS support packages for customers of Velocity Accounting Solutions**
